

**POLITECNICO**  
MILANO 1863

# Gianluca Lardo

received the Badge

From Fermi Pile to IAEA: international cooperation in the  
nuclear field.

from Politecnico di Milano on December 01, 2022

The initiative proposed in this Passion in Action aims at guiding all the interested students of the Politecnico di Milano toward this event, and will consist of two preparatory meetings: the first will be an opportunity to learn the history and scientific aspects of the Fermi Pile, the first nuclear fission reactor, and to learn about the IAEA, its activities and its contribution to the challenges of humanity through the peaceful application of nuclear disciplines and technologies; in the second meeting -of a more interactive nature- themes, reflections and questions to be directed to Rafael Mariano Grossi will be identified and discussed together.
